

## **DMV Property Management Schedule of Additional Fees and Charges**

Collecting rent, paying our landlords, handling new property condition issues, answering landlord and/or tenant questions, and sending out newsletters to landlords as well as tenants are standard services for our monthly fee.

We are able to keep our monthly fees extremely low by separating out items that our clients do not typically need us to do on a regular basis. Our clients may want to do these tasks themselves or may want to hire someone else to do them.

If DMV Property Management either completes a task outside of what is covered by the base fee, or hires another company to do so, the following are costs associated with such activity. Additional services can be provided at additional charges should any be needed that are not included in this form or part of our base services.

1. **Late Rent Payments:** If a tenant is late on the rent, certain follow up may need to be done with the tenant and/or landlord. This includes but is not limited to emails, texts, calls, and/or advising tenants about government programs to support renters. While there is no charge for this work to the landlord, DMV Property Management shall retain any collected late fees. DMV Property Management may also waive late fees when deemed appropriate by DMV Property Management. No costs shall be applied to the landlord for such work. This is differentiated from work to support a landlord when legal action is involved.
2. **Transfer of Utilities to Agent's name:** \$100 each time this is necessary (up to four companies) plus \$15/bill processed and paid.
3. **Coordination of work through the landlord's requested contractor:** \$100/hour or part thereof. This does not apply to the initial work done (unless pre-existing), only subsequent work for the same issue.
